Section 3 General provisions

3.1 The new system shall be implemented through semi-annual staffing exercises composed of two parts as follows:

(a) A staffing exercise for the filling of vacant positions in the Professional and higher categories up to and including the D-2 level and in the Field Service category, available for one year or longer: the process will begin with the advertisement of a job opening and will conclude with the selection of a candidate for the positions;

(b) A managed mobility exercise for staff members in the Professional and higher categories up to and including the D-2 level and in the Field Service category, who are subject to managed mobility: the process will begin with the circulation of a compendium and will conclude with the placement of eligible and suitable staff members to another position at the same grade level.

3.2 To ensure effective mandate implementation under the peace and security, development and human rights pillars of the United Nations, the filling of vacant positions through job openings under section 4.2 below and recruitment from a roster under section 4.5 below may be undertaken at any time outside the semi-annual staffing exercises in order to meet staffing requirements arising from surge,⁵ start-up and humanitarian emergency situations, as determined by the Office of Human Resources Management in consultation with the programme managers in the organizational units concerned.

3.3 The participation of staff members in a managed mobility exercise shall be on a voluntary (opt-in) basis during the first year of a job network transition into the new system.

3.5 In the event that a staff member is notified of his or her selection to fill a vacant position as a result of a semi-annual staffing exercise and also of a placement decision under managed mobility to move to another position, he or she shall have full discretion as to which of the two positions to accept.

3.6 Pursuant to staff regulation 4.2, the paramount consideration in the selection of a candidate to fill a vacant position or in the placement of a staff member under managed mobility shall be the necessity of securing the highest standards of efficiency, competence and integrity.

Section 4

Advertisement of vacant positions

Job openings

4.1 Vacant positions available for one year or longer shall be advertised through job openings in the established online talent management system (hereinafter “Inspira”).

4.2 Job openings shall be advertised in semi-annual staffing exercises when a new post is established, when it is anticipated that an existing post is to become vacant or when a post becomes vacant or is reclassified. The Office of Human Resources Management shall prepare these job openings in consultation with programme managers in the departments and offices of the Secretariat.

4.3 Job openings for positions whose incumbents are reaching the mandatory age of separation pursuant to staff regulation 9.2 shall be advertised no later than 12 months prior to the expected date of mandatory separation of the incumbent.

4.4 A job opening shall be based on a generic job profile, a standard job description, an individually classified job description or a previously published job opening approved by the Office of Human Resources Management.

4.5 A job opening shall state the title, the grade level, the source of funding and the duty station of the position, as well as its hardship classification and non-family designation status. A job opening shall also describe the functions of the position and indicate the assessment methodology.

4.6 A job opening shall set out the evaluation criteria according to which candidates shall be evaluated, which are:

- (a) The length of required and, if any, desirable work experience;
- (b) The relevant fields of work in which the required and, if any, desirable work experience shall have been obtained;
- (c) The required and, if any, desirable academic and other qualifications;
- (d) The required and, if any, desirable proficiency level in a working language or languages;
- (e) The core values of professionalism, integrity and respect for diversity, and at least two core competencies, as well as at least two managerial competencies for job openings with managerial responsibilities;
- (f) The screening questions reflecting the evaluation criteria in section 4.6 (a) through (e) above.

4.7 The evaluation criteria for job openings created on the basis of individually classified job descriptions require the approval of the Global Central Review Board or the Senior Review Board.

4.8 Each job opening shall indicate the date of posting and specify a deadline by which all applications must be received. Except as provided in section 4.11 below,

the deadline for applying to job openings shall normally be 45 calendar days from the date of posting. However, the Office of Human Resources Management, in consultation with programme managers concerned, may, exceptionally, approve a 30 calendar-day deadline to meet operational needs.

4.9 The deadlines for applying to job openings for vacant positions in field missions or for project-funded positions at all duty stations, including positions with functions related to the carrying out of activities directly linked to humanitarian, human rights and technical cooperation implementation at field duty stations and for general temporary assistance funded positions, shall be 30 calendar days. The Office of Human Resources Management, in consultation with programme managers concerned, may exceptionally approve a 15 calendar-day deadline to meet immediate operational needs.

4.10 In addition to advertising vacant positions in Inspira, the Office of Human Resources Management may bring particular job openings to the attention of permanent missions, professional associations or other institutions in order to attract the widest possible range of qualified candidates.

Generic job openings

4.11 Generic job openings will be advertised for the purpose of creating and maintaining viable rosters of candidates in organizational units with approval to use roster-based recruitment, such as peacekeeping operations, special political missions and other field operations. Generic job openings shall contain a clause making reference to the generic nature and roster purpose of the job opening. Such organizational units may choose to advertise job openings to fill a vacant position exclusively with a candidate from the roster (i.e. recruitment from roster) or job openings open to both rostered and non-rostered candidates.

4.12 Generic job openings shall be advertised for a minimum of 15 calendar days or for a longer period as deemed necessary by the Office of Human Resources Management in consultation with the Department of Field Support and other field-based organizational units in order to attract a sufficient number of candidates to satisfy the number of vacant posts.

Recruitment from roster job openings

4.13 Recruitment from roster job openings shall be advertised for a minimum of 15 calendar days or longer as deemed necessary by the Office of Human Resources Management in consultation with those organizational units with approval to use roster-based recruitment.

Section 5

Submission of application

5.1 Applications must be submitted through Inspira in accordance with the instructions set out in the job opening. Applying for a job opening carries an expectation that the staff member will accept the position, if selected.

5.2 Candidates are required to submit their last two performance evaluation reports as part of their applications. If the applications received do not contain the latest two performance evaluation reports, candidates must provide a short explanation as to why they are not available. Where there is a gap of six months or

longer in the record of performance, or if no evaluation was completed within six months of the end of the preceding performance cycle, the candidates shall be deemed to have fully met the performance expectations during the period for which there is no performance evaluation report.

5.3 Candidates on a roster shall be required to apply for job openings in accordance with sections 5.1 and 5.2 above in order to be considered for a vacant position.

5.4 The Office of Human Resources Management may append the names of rostered candidates within the deadline of the job opening, upon their written request, in the event that the rostered candidates do not have access to Inspira.

Section 6

Eligibility screening of candidates

6.1 At the time of application, candidates are pre-screened by Inspira and the Office of Human Resources Management on the basis of the information provided by the candidates in their applications in order to determine whether they meet the eligibility requirements, including the minimum educational, work experience and language proficiencies required, as stipulated in the job opening. Eligibility shall be confirmed prior to the submission of the lists of candidates to the Senior Review Board, the Global Central Review Board and the Job Network Boards. Furthermore, the eligibility of candidates may be reassessed by the Office of Human Resources Management at any time prior to selection or appointment.

6.2 Staff members holding appointments other than temporary appointments shall not be eligible to be considered for positions more than one level higher than their personal grade level. This provision shall also apply to staff members of organizations of the United Nations system applying to positions in the Secretariat.

The counting of the years of professional experience shall start from the date the required minimum educational degree was obtained.

6.4 The Assistant Secretary-General for Human Resources Management shall determine whether an academic qualification or equivalency will be recognized by the Organization. Academic qualifications and the equivalency of degrees presented by candidates are recognized by the Organization only where the qualification is obtained from, and the equivalency confirmed by, an educational institution that is recognized, accredited or otherwise sanctioned by competent national authorities of the country in which the institution is based or the qualification was awarded.

(d) Resignation during an investigation of misconduct or the initiation of a disciplinary process, unless the former staff member agrees to cooperate with an ongoing investigation or disciplinary process until its conclusion.

6.6 The minimum age to be eligible for consideration for vacant positions is 18 at the time of submission of the application.

6.7 Interns, consultants, individual contractors and gratis personnel of the Secretariat may not apply for or be appointed to any positions in the Professional or higher categories or to any positions at the FS-6 and FS-7 levels in the Field Service category while in service or within six months of the end of their most recent service. This restriction does not apply to associate experts appointed under the Staff Regulations and Rules.

6.8 United Nations Volunteers may not be appointed to positions in the Professional and higher categories or in the Field Service category at the same peacekeeping mission, special political mission or other field operation at which they last served within six months following the completion of their service with the United Nations Volunteers programme. United Nations Volunteers who have served less than 12 months are not eligible for appointment in the Secretariat unless a period of six months has elapsed following the completion of their service. A United Nations Volunteer who resigned may not be appointed to a position in the Secretariat within six months following the effective date of resignation.

6.9 Candidates shall be required to have at least one geographical move, which may have taken place at any level in the Professional and higher categories within the United Nations system, to be eligible to be considered for a position at the P-5, D-1 and D-2 levels, except as provided for in section 25.2 below.

6.10 The requirement for a geographical move is waived for staff serving against language positions that are subject to the provisions of the administrative instruction setting out special conditions for recruitment or placement of candidates successful in a competitive examination for positions requiring special language skills when applying for another such language position,⁶

6.11 Staff members serving against language posts that are subject to the provisions of the administrative instruction setting out special conditions for recruitment or placement of candidates successful in a competitive examination for positions requiring special language skills⁶ are eligible to be considered for non-language positions after a minimum of five years of continuous service in a language position.

6.12 The minimum education requirements for positions in the Professional and higher categories shall be waived for staff members⁷ who were recruited upon successfully passing the competitive examination for recruitment to the Professional category of staff members from other categories under staff rule 4.16.

⁶ [ST/AI/2000/1](#) (as amended by [ST/AI/2003/1](#)).

⁷ Staff members who, by 31 December 1989, had served in the Secretariat for a minimum of five years are exempt from the minimum educational requirements for the young professionals programme, provided that they hold post-secondary academic qualifications recognized by the United Nations and meet the other criteria set out in section 2.4 (a) through (d) of administrative instruction [ST/AI/2012/2/Rev.1](#) on the young professionals programme.

6.13 Staff members in the Professional and higher categories who are on secondment to a separately administered United Nations fund or programme, specialized agency or organization of the United Nations common system are eligible, while on secondment, to be considered for positions in the Secretariat one level higher than the grade level they hold while on secondment, provided that they meet the eligibility requirements of the present instruction.

6.14 Staff members who are on temporary assignment, special leave with or without pay or on secondment or loan shall keep a lien on the position they encumbered in the Secretariat. The counting of the minimum and maximum position occupancy limits shall be suspended and shall resume upon the return of the staff members to the positions they encumbered.

6.15 Staff members holding temporary appointments who are recruited in the Professional and higher categories and encumber positions authorized for one year or longer may not apply for or be reappointed to those positions within six months of the end of their current service on the temporary appointments. This provision does not apply to staff members holding temporary appointments and encumbering positions authorized for one year or longer in peacekeeping missions, special political missions or other field operations.

6.19 Staff members in the General Service and related categories⁸ who are recruited locally in accordance with staff rule 4.4 may apply as external candidates to positions in the Field Service category provided that they meet all the requirements for the position. Should such staff members be selected following a competitive process for a Field Service position, they may be appointed or assigned to the Field Service category. Assignments shall be for a maximum period not exceeding two years, during which the staff members will maintain a lien on their prior positions at their personal grade level. At the end of the two-year period, the staff members must return to their former positions in the General Service and

Section 7

Assessment of eligible candidates

7.1 Following the completion of the eligibility screening under section 6, eligible candidates shall be invited by the Office of Human Resources Management for an assessment to evaluate their knowledge, skills, abilities and competencies in order to determine their suitability for the vacant position.

7.2 Previously rostered candidates who applied for a job opening shall not be subject to any further assessment and, accordingly, will not be invited for such an assessment. The Office of Human Resources Management shall determine the suitability of rostered candidates for the vacant position against the evaluation criteria stipulated in the job opening on the basis of the information provided in their applications, and shall submit to programme managers the list of previously rostered suitable candidates for their review.

7.3 Assessments will be conducted by assessment panels, which will be set up by the Office of Human Resources Management. Each assessment panel shall have a minimum of three staff members at the same or at a higher level than the vacant position and shall hold appointments under the Staff Regulations and Rules other than temporary appointments. The programme manager of the vacant position may participate in the assessment panel. There shall be at least one female staff member, one male staff member and one staff member from outside the organizational unit where the vacant position is located. An assessment panel shall also include an ex officio member. The ex officio members of the assessment panels shall prepare a reasoned and documented record of the assessment process in Inspira.

7.4 The assessment panels will contribute to the development and marking of the written assessments. The assessment panels shall establish passing thresholds for the written assessments in order to determine which candidates may be invited for interviews, and shall conduct those interviews. All members of an assessment panel who participate in the interviews shall have completed the required training on competency-based interviewing.

7.5 The assessment may include:

(a) A written test, which may consist of a multiple-choice portion, a constructed-response portion and other test formats. Eligible candidates shall be requested to take the written test in the dedicated system for this purpose. Where both multiple-choice and constructed-response portion are administered, the multiple-choice portion of the test will be marked first and may be eliminatory. Candidates who are successful in the multiple-choice portion of the test shall have their constructed-response portion and any other written formats of the written test marked;

(b) Candidates who pass the written test shall be invited to participate in an interview, which will consist of a competency-based interview to ascertain whether the candidates possess the core values and core and managerial competencies stipulated in the job opening and may also include other oral test formats to further assess other evaluation criteria stipulated in the job opening.

7.6 Upon completion of the assessment process, the Office of Human Resources Management shall transmit the list of suitable candidates who have successfully passed the assessment process to the programme managers for their review, pursuant to section 10 below, prior to submitting them to the Global Central Review Board or the Senior Review Board. Pursuant to section 7.2 above, the names of previously rostered candidates will not be submitted to the Global Central Review Board or the Senior Review Board.

Section 8

Review of suitable candidates by the programme managers

8.1 The Office of Human Resources Management shall prepare and submit to programme managers for their review a list containing the names of previously rostered candidates found suitable for the vacant position in accordance with section 7.2 above and the names of suitable candidates who have successfully passed the assessment process in accordance with section 7.6 above. Such lists shall normally include at least three candidates, including at least one female candidate and at least one male candidate.

8.2 Along with such lists, the Office of Human Resources Management shall submit to programme managers the following information:

- (b) The personal history profiles of the candidates on the lists;
- (c) The performance evaluation reports of the candidates on the lists;
- (d) Reasoned and objectively justifiable records on the application of the evaluation criteria stipulated in the job opening for the candidates on the lists.

8.3 In consultation with their respective heads of departments and offices, programme managers shall review the list of suitable candidates submitted by the Office of Human Resources Management and indicate their input and preferences, in ranking order, of candidates deemed suitable for the vacant positions. In providing their written input and preferences, programme managers shall be guided by the provisions of staff regulation 4.2 and shall consider the extent to which the suitable candidates will complement the skillsets of the organizational unit where the vacant positions are located and whether the candidates will be most likely to facilitate the implementation of the mandate of the departments or offices. Programme managers shall record their input and preferences in Inspira within the deadline established by the Office of Human Resources Management. In the event that programme managers do not provide their written input and preferences within the established deadline, the Office of Human Resources Management shall deem all suitable candidates to be equally ranked by the programme managers.

Section 9

Endorsement of suitable candidates by the Global Central Review Board

9.1 Pursuant to staff rule 4.15, the Global Central Review Board shall review and endorse suitable candidates who have successfully passed the assessment process in accordance with section 7.6 above for the filling of vacant positions in the Professional category up to and including the P-5 level and in the Field Service

Additional general provisions applicable to the placement of staff members under managed mobility

15.1 The placement of staff members in the Professional and higher categories up to and including the D-2 level and in the Field Service category under managed mobility will be initiated through the circulation of a compendium.

15.2 The placement of staff members under managed mobility will be undertaken on the basis of the continuing needs of the Organization¹³ against rotational positions that are expected to continue to be funded for two years or longer through the regular budget, the support account and peacekeeping operations budget and other extrabudgetary sources, including voluntary contributions.

15.3 Notwithstanding the provisions of section 15.2 above, positions directly financed by project funds for the sole purpose of executing a project for a finite period of time may be excluded from the managed mobility exercise following a review by the Office of Human Resources Management in consultation with the departments and offices concerned.

15.4 Positions that are subject to abolition and reduction of staff shall not be included in the compendium.

15.5 Only encumbered positions will be included in the compendium. In the event that staff members who participate in a managed mobility exercise vacate their positions during the conduct of the exercise, they will no longer be considered for placement under managed mobility. However, their positions shall remain available in the compendium for the placement of other staff members participating in the managed mobility exercise.

15.6 Further to section 15.5 above, an encumbered position included in the compendium that will become vacant as a result of placement decisions under managed mobility made by the Secretary-General or the Assistant Secretary-General for Human Resources Management shall be advertised through a job opening in the

next semi-annual staffing exercise, in accordance with part I of the present instruction.

15.7 Staff members shall not retain a lien on the position they vacate following their placement under managed mobility to a new position.

Section 16

Establishment of the compendium of position announcements

Calculation of position occupancy limits

16.1 The calculation of the position occupancy limits, for the purpose of placement under managed mobility, shall include time served in the position the staff member encumbers on an appointment other than a temporary appointment.

16.2 Maximum position occupancy limits shall apply to staff members subject to managed mobility. Upon reaching the maximum position occupancy limit against the position they encumber, staff members shall be required to participate in a managed mobility exercise.

16.3 Continuous periods of service of one year or longer in the following instances shall not count towards the calculation of the position occupancy limit of the staff member. The counting of the position occupancy limit in such instances shall be suspended, and shall only resume upon the staff members' return to their prior positions in their releasing departments or offices or upon conclusion of the full-time release:

- (a) Special leave with or without pay;
- (b) Temporary assignment to another position;
- (c) Secondment or loan to a United Nations fund or programme, specialized agency or organization of the United Nations system;
- (d) Service for a continuous period of one year or longer for service as staff representatives granted full-time release in the staff representative bodies of the Economic Commission for Africa, the Staff Association of the Economic Commission for Latin America and the Caribbean, the Staff Council of the Economic and Social Commission for Asia and the Pacific, the Staff Council of the Economic and Social Commission for Western Asia, the United Nations Field Staff Union, the United Nations Office in Geneva Staff Coordinating Council, the United Nations Staff Union (New York), the Staff Union of the United Nations Office at Nairobi and the Staff Council of the United Nations Office at Vienna.

16.4 Further to section 16.3 above, continuous periods of less than one year, or cumulative periods totalling one year or longer that are not continuous, shall not interrupt the counting of the position occupancy and shall therefore be counted toward the maximum position occupancy limit of the staff member.

16.5 Staff members who fall under subsections 16.3 (a) to (c) above shall not be eligible to participate in a managed mobility exercise until they have returned to their former position in their releasing department or office.

16.6 In the event of a change in the classification of a duty station, the calculation of the minimum and maximum position occupancy limits will be based on the lower or the higher of the classification categories at any time the staff member

encumbered his or her position at that duty station, subject to the staff members' needs, in order to allow the staff member either to participate earlier in a managed mobility exercise or to delay his or her participation.¹⁴

Choosing to take part in a managed mobility exercise

16.7 Staff members who have served the minimum position occupancy limit may choose, through Inspira, to participate in a managed mobility exercise prior to reaching the maximum position occupancy limit.

16.8 Staff members who choose to participate in a managed mobility exercise may only opt out prior to the circulation of the compendium, in accordance with section 16.15 below.

Confirmation of participation in a managed mobility exercise

16.9 In cooperation with the departments and offices, the Office of Human Resources Management shall identify staff members who have reached the maximum position occupancy limit.

16.10 In order for a staff member to participate in a managed mobility exercise, the Office of Human Resources Management shall confirm that the following two criteria have been met prior to the circulation of the compendium:

(a) The staff member has served the maximum position occupancy limit, or, for those staff members who choose to participate, they have served the minimum position occupancy limit;

(b) The position encumbered by the staff member is rotational, pursuant to the requirement of section 15.2 above.

16.11 Pursuant to sections 16.9 and 16.10 above, staff members will be informed by the Office of Human Resources Management of the inclusion of the position they encumber in the compendium and of their participation in a managed mobility exercise.

Creation of position announcements

16.12 In consultation with programme managers, the Office of Human Resources Management will prepare and create the position announcements. A position announcement shall be based on a generic job profile, a standard job description, an individually classified job description or a previously published job opening approved by the Office of Human Resources Management.

16.13 A position announcement shall state the title, the grade level, the source of funding and the duty station of the position, as well as its hardship classification and non-family designation status. A position announcement shall also describe the functions of the position.

16.14 A position announcement shall set out the suitability criteria according to which candidates shall be reviewed, which are:

¹⁴ For example, if the classification changed from C to D during the course of a staff member's service at a particular duty station, the minimum and maximum position occupancy limits could be either one or two years or three or four years, respectively, in line with the requirements for service at duty stations classified in the C and D categories.

- (a) The length of required and, if any, desirable work experience;
- (b) The relevant fields of work in which the required and, if any, desirable work experience have been obtained;
- (c) The required and, if any, desirable academic and other qualifications;
- (d) The required and, if any, desirable proficiency level in a working language or languages;
- (e) The core values of professionalism, integrity and respect for diversity and at least two core competencies most relevant for the job opening, as well as at least two managerial competencies for job openings with managerial responsibilities;
- (f) The screening questions reflecting the suitability criteria in subsections 16.14 (a) to (e), chosen in consultation with programme managers in the relevant departments and offices.

16.15 The compendium shall be circulated with a specified deadline by which time all expressions of interest for positions listed in the compendium must be received from participating staff members. The deadline to express interest in all position announcements shall be 30 calendar days from the date of circulation of the compendium.

Section 17

Submission of expressions of interest

17.1 Expressions of interest for position announcements circulated in the compendium must be submitted through Inspira in accordance with the instructions set out in the compendium. Expressing interest in a position announcement carries an expectation that the staff member will accept the position.

17.2 An expression of interest in a position announcement shall include the personal history profile, the two most recent performance evaluation reports, the mobility record and the preferences of the staff member for the positions in the compendium, as well as any relevant information on the staff member's mobility and career development goals.

17.3 Participating staff members shall express interest in a minimum of three positions in their job network at their grade level. Staff members are encouraged to express interest in at least one position located in a different duty station and with a different classification from their current official duty station. Staff members are encouraged to carefully consider all position announcements and to take their professional and personal circumstances into account when expressing interest in a position.

17.4 Participating staff members who are within five years of the mandatory age of separation or who have undergone at least seven geographical moves are not required to move geographically under the managed mobility exercise, although they will be required to participate in the managed mobility exercise pursuant to sections 16.9 and 16.10 above and may express interest only in positions located at their current official duty station if they do not wish to be placed at another duty station.

17.5 In the event that staff members do not express an interest in any position, as required pursuant to section 17.3 above, the Job Network Board may recommend

the placement of the staff members to positions for which they are deemed suitable and offer them a placement proposal pursuant to section 19.3 below.

17.6 Staff members are required to submit their last two performance evaluation reports as part of their expressions of interest. Where such expressions of interest do not contain the latest two performance evaluation reports, the staff members must provide a short explanation as to why they are not available. Where there is a gap of six months or longer in the records of performance, or if no evaluation was completed within six months of the end of the preceding performance cycles, the staff members shall be deemed to have fully met the performance expectations during the period for which there are no performance evaluation reports.

Section 18

Suitability determination of staff members

18.1 In collaboration with subject matter experts from the departments and offices that make up a job network, the Office of Human Resources Management will review the qualifications of participating staff members against the suitability criteria stipulated in the position announcement on the basis of the information provided in their expressions of interest to determine their suitability to carry out the functions of the position.

18.2 The subject matter experts and human resources officers in the Office of Human Resources Management shall complete a reasoned and documented record of the outcome of the suitability review and prepare and submit a list of suitable staff members for the position to the programme managers. Such lists shall normally include at least three candidates, including at least one female and at least one male.

18.3 Along with such list, the Office of Human Resources Management shall submit to programme managers the following information:

Review by programme managers

18.4 In consultation with their respective heads of departments and offices, programme managers shall review the list of suitable staff members submitted by the Office of Human Resources Management and indicate their input and preferences, in ranking order, of the staff members deemed suitable for the position. In providing their written input and preferences, programme managers shall consider the extent to which the suitable staff members will complement the skillsets of the organizational unit where the position is located and whether they will be most likely to facilitate the implementation of the mandate of the department or office. Programme managers shall record their input and preferences in Inspira within the deadline established by the Office of Human Resources Management. In the event that programme managers do not provide their written input and preferences within the established deadline, the Office of Human Resources

Management shall deem all suitable staff members to be equally ranked by the programme managers.

18.5 Upon receipt of the input and preferences from the programme managers, the Office of Human Resources Management shall prepare and submit: a ranked list of suitable staff members for positions in the Professional category up to and including the P-5 level and in the Field Service category to the Job Network Boards; and a ranked list of suitable staff members for positions at the D-1 and D-2 level to the secretariat of the Senior Review Board.

19.1 The Job Network Boards shall review the lists of suitable staff members in the Professional category and in the Field Service category submitted by the Office of Human Resources Management under section 18, in accordance with annex I to the present instruction.

19.2 In accordance with sections 4.14 and 4.15 of Secretary-General's bulletin [ST/SGB/2016/3](#), entitled "Senior Review Board", for positions at the D-1 and D-2 levels, the Senior Review Board shall review the lists of suitable staff members prepared and submitted by the Office of Human Resources Management under section 18 above and reviewed by the secretariat of the Board and develop and submit its placement recommendations under managed mobility to the Secretary-General for his or her placement decision.

19.3 In the event that the Job Network Boards or the Senior Review Board, as applicable, are unable to recommend the placement under managed mobility of a staff member to a position that he or she has expressed interest in, the staff member

may receive a placement proposal to another position in the compendium in which he or she had not expressed interest but for which he or she is deemed suitable. This shall also apply to staff members who did not express interest in any position subject to section 17.5 above.

Section 20

Review of requests from staff members and programme managers by the Special Constraints Panel

20.1 In accordance with annex II to the present instruction, the Special Constraints Panel shall consider requests for review from staff members who have received a proposed placement.

20.2 Staff members seeking review of a proposed placement based on one or more of the reasons set forth in paragraph 1 of annex II to the present instruction shall submit their requests for review to the Special Constraints Panel within 14 calendar days from the receipt of the placement proposal, together with supporting documentation.

20.3 In accordance with annex II, for matters in the interest of the Organization, a request for a staff member to remain in his or her position must be submitted jointly by the programme manager and the staff member and be endorsed by the head of the relevant department or office. The request should include a reasoned and documented record of how the placement of the staff member to another position would negatively affect the successful implementation of a project.

20.4 All requests and supporting documentation submitted by staff members shall be confidential and will only be used for the purposes of determining their ability to move to the position proposed by the Job Network Boards or the Senior Review Board.

20.5 The Special Constraints Panel shall inform the Job Network Boards and the Senior Review Board of the outcome of their reviews of the requests received from staff members and programme managers. The Senior Review Board and the Job Network Boards shall consider the recommendations of the Special Constraints Panel when developing their recommendations on the placement of staff members.

20.6 Staff members shall be notified of the outcome of their requests for review to the Special Constraints Panel at the time of the notification of the placement decision under managed mobility in accordance with section 22.

Section 21

Placement decision under managed mobility

21.1 Considering the placement recommendations under managed mobility received from the Senior Review Board or the Job Network Boards pursuant to section 20.5 above, the Secretary-General or the Assistant Secretary-General for Human Resources Management, as appropriate, shall make the decision to place suitable staff members who participated in a managed mobility exercise against the positions in the compendium. Staff members who are not placed on another position shall remain on the position they encumber.

21.2 Staff members who have been required to participate in the managed mobility exercise by virtue of having met their maximum position occupancy limit, in

accordance with section 16.9 above, and who are not placed on a new position in such exercise shall be required to participate in the managed mobility exercise taking place one year later, subject to the requirements set out in section 16 to the present instruction.

21.3 Placement decisions under managed mobility made by the Secretary-General and the Assistant Secretary-General for Human Resources Management on the basis of the recommendations for placement under managed mobility received from the Senior Review Board and the Job Network Boards shall be published at the end of each semi-annual staffing exercise.

22.2 Staff members who are placed on a new position shall normally assume their new functions within two calendar months from the date of notification of the placement decision under managed mobility.

22.3 If a staff member fails to take up his or her duties within the time frame specified in section 22.2 above, the head of the releasing and receiving department or office shall inform the Secretary-General or the Assistant Secretary-General for Human Resources Management.

Section 23

Placement authority

Heads of departments and offices shall have the authority and responsibility to place in a suitable position, within their own department/office, incumbents, except those holding a temporary appointment, of positions reclassified upward for which a candidate other than the incumbent has been selected. After consultation with the staff member concerned and subject to determination of the availability of a suitable position at the same level, the head of department or office shall decide on the placement in accordance with staff regulation 1.2 (c).

24.3 Staff members in the Field Service category reassigned pursuant to sections 24.1 and 24.2 above may only be laterally transferred to duty stations where there are established positions in the Field Service category.

24.4 The authority of the heads of department or office to laterally reassign staff members under sections 24.1 and 24.2 above shall be reviewed prior to 31 December 2017 on the basis of the lessons learned through the phased implementation of the new staff selection and managed mobility system.

Section 25

25.1 The provisions of administrative instruction [ST/AI/2010/3](#), as amended or revised, shall continue to apply to job openings of the job networks which have transitioned into the new staff selection and managed mobility system but were advertised prior to the effective date of the transition of the job network into the new system.

25.2 For staff members who joined the Organization on or before 30 April 2014, the eligibility requirement to be considered for promotion to the P-5, D-1 and D-2 levels may include two lateral moves, in lieu of the geographical move required in section 6.10 above, which may have taken place at any level in the Professional category, and shall be subject to the following provisions:

(a) In order to respond to the concern of the General Assembly about high vacancy rates in some regional commissions and duty stations, particularly those in developing countries, the requirement shall be reduced to one lateral move when a staff member has served in the Professional and higher categories in Nairobi or at a regional commission other than the Economic Commission for Europe or any duty station with a classification of A, B, C, D or E² for one year or longer, or when a staff member is applying for a P-5, D-1 or D-2 position at those duty stations from another duty station;
